

Health & Safety Policy

Heat Trace Ltd (HTL) is committed to providing service excellence to all customers, with due regard to maintaining an effective HS Management System (HSMS) which includes Health & Safety Management requirements & protocols.

HTL Senior Management & Executive board shall commit to:

- Becoming an organisation that will go beyond the requirements set upon us by corporate, regulative, legal and other bodies to manage risk.
- Set the business Management objectives, targets and other corporate goals that are measurable & auditable in order to satisfy the requirements of the Heat Trace Ltd HS Management System.
- Raise awareness throughout the business and take all practicable steps to prevent ill health, loss, or personal injury.
- Identify appropriate and competent resources to enable completion of business objectives and targets and provide the structure to achieve this.
- Effectively communicate the HSMS requirements, utilising inductions, internal marketing & noticeboards to all HTL employees.
- Look inwardly to continually improve the HS Management System.
- Make this policy available to any other relevant third party stakeholder.
- Periodic review of this policy to ensure effectiveness, suitability and opportunities to improve the HS Management System.

All personnel throughout the Company shall bear equal responsibility for protecting their own/colleague's health, safety and welfare for all tasks for which they are accountable.

This policy will be reviewed annually.
